

Digit Squares – W22

Class: _____

Name: _____

Date: _____

$$\square + \square 3 + \square = \square 18$$

$$+ \quad + \quad + \quad +$$

$$\square 5 + \square + \square 4 = \square 11$$

$$+ \quad + \quad + \quad +$$

$$\square + \square 1 + \square = \square 16$$

$$\parallel \quad \parallel \quad \parallel$$

$$\square 21 + \square 6 + \square 18$$

$$\square + \square 3 + \square = \square 10$$

$$+ \quad + \quad + \quad +$$

$$\square 7 + \square + \square 8 = \square 24$$

$$+ \quad + \quad + \quad +$$

$$\square + \square 5 + \square = \square 11$$

$$\parallel \quad \parallel \quad \parallel$$

$$\square 15 + \square 17 + \square 13$$

$$\square + \square 8 + \square = \square 23$$

$$+ \quad + \quad + \quad +$$

$$\square 5 + \square + \square 7 = \square 13$$

$$+ \quad + \quad + \quad +$$

$$\square + \square 3 + \square = \square 9$$

$$\parallel \quad \parallel \quad \parallel$$

$$\square 18 + \square 12 + \square 15$$

$$\square + \square 1 + \square = \square 7$$

$$+ \quad + \quad + \quad +$$

$$\square 5 + \square + \square 7 = \square 18$$

$$+ \quad + \quad + \quad +$$

$$\square + \square 9 + \square = \square 20$$

$$\parallel \quad \parallel \quad \parallel$$

$$\square 17 + \square 16 + \square 12$$

$$\square + \square 3 + \square = \square 13$$

$$+ \quad + \quad + \quad +$$

$$\square 5 + \square + \square 1 = \square 14$$

$$+ \quad + \quad + \quad +$$

$$\square + \square 9 + \square = \square 18$$

$$\parallel \quad \parallel \quad \parallel$$

$$\square 11 + \square 20 + \square 14$$

$$\square + \square 5 + \square = \square 14$$

$$+ \quad + \quad + \quad +$$

$$\square 8 + \square + \square 7 = \square 19$$

$$+ \quad + \quad + \quad +$$

$$\square + \square 1 + \square = \square 12$$

$$\parallel \quad \parallel \quad \parallel$$

$$\square 20 + \square 10 + \square 15$$

Use each of the digits 1–9, but no digit shall be used twice!
